<p>52050.5. The Legislature finds and declares all of the following:</p> <p>(a) The purpose of the California public school system is to provide for the academic development of each pupil and prepare each pupil, to the extent of his or her ability, to become a lifelong learner, equipped to live and succeed within the economic and societal complexities of the 21st century.</p> <p>(b) It is in the interest of the people and the future of this state to ensure that each child in California receives a high quality education consistent with all statewide content and performance standards, as adopted by the State Board of Education, and with a meaningful assessment system and reporting program requirements.</p> <p>(c) Recent assessments indicate that many pupils in California are not now, generally, progressing at a satisfactory rate to achieve a high quality education.</p> <p>(d) To remedy this, the state is in need of an immediate and comprehensive accountability system to hold each of the state's public schools accountable for the academic progress and achievement of its pupils within the resources available to schools.</p> <p>(e) Any promising and effective accountability system must be based upon a constructive and collaborative process that seeks to include stakeholders in the accountability process.</p> <p>(f) Any promising and effective accountability system requires the active involvement of parents and guardians, pupils, educators, community leaders, school boards, and schoolsite teams.</p> <p>(g) The statewide school accountability system must encourage the active participation of parents and guardians, pupils, educators, and the local community in improving pupil achievement.</p> <p>(h) The statewide accountability system must be easily accessible and understandable to parents and others.</p> <p>(i) The statewide accountability system must include rewards that recognize high achieving schools as well as interventions and, ultimately, sanctions for schools that are continuously low performing.</p> <p>(j) It is also the intent of the Legislature that the comprehensive and effective school accountability system primarily focus on increasing academic achievement.</p> <p>(k) To achieve better pupil performance, it is the intent of the Legislature that any school accountability system do all of the following:</p> <p>(1) Encourage teacher preparation that allows teachers to develop the ability to inspire pupils to become lifelong learners.</p> <p>(2) Encourage teacher preparation and consistent ongoing professional development that serves to develop competency in content and pedagogy and that allows teachers to effectively involve themselves in promoting school accountability.</p> <p>(3) Encourage the involvement of the community and its stakeholders in the accountability system.</p> <p>(4) Encourage local community involvement in providing support for education and identifying causes of pupil failure and designing programs for remediation.</p> <p>(5) Approach accountability with an attitude of collaboration, encouragement, and correction.</p> <p>(6) Utilize the state infrastructure to support schools, school districts, and county offices of education in their efforts to improve pupil achievement and progress.</p> <p>(7) Encourage each local community to support and sustain high-quality educational programs and to build the capacity of educators and schools to succeed in educating every pupil.</p> <p>(8) Encourage active involvement of parents and guardians in the development and implementation of school accountability systems.</p>	<i>No revisions by SB 1552</i>	No change

<p>52052. (a) By July 1, 1999, the Superintendent of Public Instruction, with approval of the State Board of Education, shall develop an Academic Performance Index, to be used to measure performance of schools, especially the academic performance of pupils, and demonstrate comparable improvement in academic achievement by all numerically significant ethnic and socioeconomically disadvantaged subgroups within schools.</p> <p>A numerically significant ethnic or socioeconomically disadvantaged subgroup is a subgroup that constitutes at least 15 percent of a school's total pupil population and consists of at least 30 pupils.</p> <p>The index shall consist of a variety of indicators currently reported to the State Department of Education including, but not limited to, the results of the achievement test administered pursuant to Section 60640, attendance rates for pupils and certificated school personnel for elementary schools, middle schools, and secondary schools, and the graduation rates for pupils in secondary schools.</p> <p>The pupil data collected for the API that comes from the achievement test administered pursuant to Sections 60640 and 60644 and the high school exit examination, when fully implemented, shall be disaggregated by special education status, English language learners, socioeconomic status, gender and ethnic group. Only the test scores of pupils enrolled in a school district for one year or more may be included in the test results reported in the API. Results of the achievement test and other tests specified in subdivision (b) shall constitute at least 60 percent of the value of the index.</p> <p>Before including high school graduation rates and attendance rates in the index, the Superintendent of Public Instruction shall determine the extent to which the data is currently reported to the state and the accuracy of the data.</p> <p>If the Superintendent of Public Instruction determines that accurate data for these indicators is not available, the Superintendent of Public Instruction shall report to the Governor and the Legislature by September 1, 1999, and recommend necessary action to implement an accurate reporting system.</p> <p>(b) Pupil scores from the following tests, when available and when found to be valid and reliable for this purpose, shall be incorporated into the API:</p> <p>(1) The assessment of the applied academic skills matrix test development pursuant to Section 60604.</p> <p>(2) The nationally normed test as augmented pursuant to paragraph (1) of subdivision (f) of Section 60644.</p> <p>(3) The high school exit examination.</p> <p>(c) Based on the API, the Superintendent of Public Instruction shall develop, and the State Board of Education shall adopt, expected annual percentage growth targets for all schools based on their API baseline score as measured in July 1999. (a) (1) By July 1, 1999, the Superintendent of Public Instruction, with approval of the State Board of Education, shall develop an Academic Performance Index (API), to measure the performance of schools, especially the academic performance of pupils, and to demonstrate comparable improvement in academic achievement by all numerically significant ethnic and socioeconomically disadvantaged subgroups within schools.</p> <p>(2) For purposes of this section, a numerically significant ethnic or socioeconomically disadvantaged subgroup is a subgroup that constitutes at least 15 percent of a school's total pupil population and consists of at least 30 pupils. An ethnic or socioeconomically disadvantaged subgroup of at least 100 pupils constitutes a numerically significant subgroup, even if the subgroup does not constitute 15 percent of the total enrollment at a school.</p> <p>(3) The API shall consist of a variety of indicators currently reported to the State Department of Education including, but not limited to, the results of the achievement test administered pursuant to Section 60640, attendance rates for pupils and certificated school personnel for elementary schools, middle schools, and secondary schools, and the graduation rates for pupils in secondary schools.</p> <p>(A) The pupil data collected for the API that comes from the achievement test administered pursuant to Sections 60640 and 60644 and the high school exit examination administered pursuant to Section 60851, when fully implemented, shall be disaggregated by special education status, English language learners, socioeconomic status, gender and ethnic group. Only the test scores of pupils who were enrolled in a school district in the prior fiscal year may be included in the test results reported in the API. Results of the achievement test and other tests specified in subdivision (b) shall constitute at least 60 percent of the value of the index.</p> <p>(B) Before including high school graduation rates and attendance rates in the index, the Superintendent of Public Instruction shall determine the extent to which the data is currently reported to the state and the accuracy of the data.</p> <p>(C) If the Superintendent of Public Instruction determines that accurate data for these indicators is not available, the Superintendent of Public Instruction shall report to the Governor and the Legislature by September 1, 1999, and recommend necessary action to implement an accurate reporting system.</p> <p>(b) Pupil scores from the following tests, when available and when found to be valid and reliable for this purpose, shall be incorporated into the API:</p> <p>(1) The assessment of the applied academic skills matrix test developed pursuant to Section 60604.</p> <p>(2) The nationally normed test as augmented pursuant to paragraph (1) of subdivision (f) of Section 60644.</p> <p>(3) The high school exit examination.</p> <p>(c) Based on the API, the Superintendent of Public Instruction shall develop, and the State Board of Education shall adopt, expected annual percentage growth targets for all schools based on their API baseline score as measured in July 1999. <p>expected to meet these growth targets through effective allocation of available resources. The minimum percentage growth target shall be 5 percent annually. However, the State Board of Education may set differential growth targets based on grade level of instruction and may set higher growth targets for the lowest performing schools because they have the greatest room for improvement.</p> <p>(d) Upon adoption of state performance standards by the State Board of Education, the Superintendent of Public Instruction shall recommend, and the State Board of Education shall adopt, a statewide API performance target that includes consideration of performance standards and represents the proficiency level required to meet the state performance target. When fully developed, schools may either meet the state target or meet their growth targets to be eligible for the Governor's Performance Award Program as set forth in Section 52057.</p> <p>(e) Beginning in June 2000, the API shall be used for both of the following:</p> <p>(1) Measure the progress of schools selected for participation in the Immediate Intervention/Underperforming Schools Program pursuant to Section 52053.</p> <p>(2) Rank all public schools in the state for the purpose of the High Achieving/Improving Schools Program pursuant to Section 52056.</p> <p>(f) Only comprehensive high schools, middle schools, and elementary schools that have a population of 100 or more pupils may be included in the API ranking.</p> <p>(g) By July 1, 2000, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall develop an alternative accountability system for schools with fewer than 100 pupils, and for schools under the jurisdiction of a county board of education or a county superintendent of schools, community day schools, and alternative schools, including continuation high schools and independent study schools.</p>	<p>expected to meet these growth targets through effective allocation of available resources. For schools below the statewide API performance target adopted by the State Board of Education pursuant to subdivision (d), the minimum annual percentage growth target shall be 5 percent of the difference between a school's actual API score and the statewide API performance target, or one API point, whichever is greater. Schools at or above the statewide API performance target shall have, as their growth target, maintenance of their API score above the statewide API performance target. However, the State Board of Education may set differential growth targets based on grade level of instruction and may set higher growth targets for the lowest performing schools because they have the greatest room for improvement. To meet its growth target, a school shall demonstrate that the annual growth in its API is equal to or more than its schoolwide annual percentage growth target and that all numerically-significant ethnic and socioeconomically disadvantaged subgroups, as defined in subdivision (a) of Section 52052, are making comparable improvement.</p> <p>(d) Upon adoption of state performance standards by the State Board of Education, the Superintendent of Public Instruction shall recommend, and the State Board of Education shall adopt, a statewide API performance target that includes consideration of performance standards and represents the proficiency level required to meet the state performance target. When fully developed, schools may either meet the state target or meet their growth targets to be eligible for the Governor's Performance Award Program as set forth in Section 52057.</p> <p>(e) Beginning in June 2000, the API shall be used for both of the following:</p> <p>(1) Measuring the progress of schools selected for participation in the Immediate Intervention/Underperforming Schools Program pursuant to Section 52053.</p> <p>(2) Ranking all public schools in the state for the purpose of the High Achieving/Improving Schools Program pursuant to Section 52056.</p> <p>(f) Only comprehensive high schools, middle schools, and elementary schools that have a population of 100 or more pupils may be included in the API ranking.</p> <p>(g) By July 1, 2000, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall develop an alternative accountability system for schools with fewer than 100 pupils, and for schools under the jurisdiction of a county board of education or a county superintendent of schools, community day schools, and alternative schools, including continuation high schools and independent study schools.</p>	<p>Revised wording</p> <p>Added to the law</p> <p>No change</p> <p>No change</p> <p>No change</p> <p>No change</p>

<p>52053. (a) The Immediate Intervention/Underperforming Schools Program is hereby established. By August 15, 1999, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall invite schools that scored below the 50th percentile on the achievement tests administered pursuant to Section 60640 both in the spring of 1998 and in the spring of 1999 to participate in the Immediate Intervention/Underperforming Schools Program. A school invited to participate may take any action not otherwise prohibited under state or federal law and that would not require reimbursement by the Commission on State Mandates to improve pupil performance.</p> <p>(b) The total number of schools participating in the program shall be 430. Unless subdivision (d) applies, schools that apply will be selected based on the order in which they apply within ranks of deciles, not to exceed 86 per decile, within the following grade level categories:</p> <p>(1) No more than 301 elementary schools.</p> <p>(2) No more than 78 middle schools.</p> <p>(3) No more than 52 high schools.</p> <p>(c) The 86 schools selected within each decile range pursuant to subdivision (b) shall proportionately represent elementary, middle, and high schools and shall provide statewide proportionate geographic representation of urban and rural schools.</p> <p>(d) If fewer than the number of schools in any grade level category apply, schools that scored below the 50th percentile in those grade level categories that did not apply for the program shall randomly be selected by the Superintendent of Public Instruction, with the approval of the State Board of Education, to participate based on their proportional representation in the state until the number of schools in each grade level category set forth in subdivision (b) is achieved.</p> <p>(e) If more than the requisite number of schools apply for any grade level category, the Superintendent of Public Instruction shall select an array of schools that reflect a broad range of academic performance of schools that scored below the 50th percentile, until the number of schools in each grade level category set forth in subdivision (b) is achieved.</p> <p>(f) A school selected to participate on or before September 1, 1999, shall be awarded a planning grant from funds appropriated pursuant to paragraph (1) of subdivision (a) of Section 2 of the act adding this section in the amount of fifty thousand dollars (\$50,000). A school selected to receive federal funds pursuant to paragraph (2) of subdivision (a) of Section 2 of the act adding this section shall be awarded an implementation grant in an amount of at least fifty thousand dollars (\$50,000) pursuant to Public Law 105-78.</p> <p>(g) Schools receiving funding under paragraph (2) of subdivision (a) of Section 2 of the act adding this section shall comply with Public Law 105-78.</p> <p>(h) Schools selected for participation in the program shall be notified by the Superintendent of Public Instruction no later than September 1 of each year.</p>	<p>52053.
